Re: United States Patent Application via PCT (National Phase)
PCT Application No. PCT/GB9601773
International Filing Date: 24th July 1996
Title of Invention: A MAGNETIC FILTER DEVICE
Inventor: Harold Hall

RECEIVED

MAY 17 1999

GROUP 1700

Dear Sir,

I write in connection with the Examination (substantive) stage. Although amendments were made to the application following the International Preliminary Examination, I would like to request that the above Patent Application be examined on the claims as originally filed (on 24th July 1996). I hope this will not be inconvenient.

Thank you for your kind attention.
